One digit word problems on multiplication.

- 1) Tim has six five dollars bills. How much money does he have?
- 2) Keith goes out to lunch with Mike and Sam. Each person orders the \$5 lunch special. Keith agrees to pay the bill. How much will he have to pay?
- 3) Sally, Joan, and Dan each have seven crayons. How many crayons do they have in all?
- 4) Keith was at the beach for five days and found six seashells and four starfish every day. How many seashells did Keith find during the beach trip?
- 5) Alyssa goes fishing with Sam. Alyssa catches 6 trout and 3 catfish. Sam catches twice as many trout as Alyssa. How many trout did Sam catch?
