Number Patterns

Write the next number in the number sequence. Then find a rule for each sequence.

1) 4, 7, 10, 13, 16, _____

2) 22, 32, 42, 52, 62, _____

3) 36, 29, 22, 15, 8, _____

4) 12, 16, 18, 22, 24, 28,

Fill in the missing number in a pattern. Then write a rule for each pattern.

5) 2, 8, 14, ____, 26, ____ Rule :____

6) 97, 88, 79, ____, 52 Rule :_____

7) 13, 25, , 49, ,73 Rule:

Natasha's Savings

For questions 8-10, use the table.

Week	1	2	3	4
Amount	\$18	\$27		\$45

- 8) How much money does Natasha save each week?
- 9) What is Natasha's total savings in week 3?
- 10) Natasha wants to buy a jewelry box that costs\$70. If she continues the saving pattern, will she have enough money saved by week 7?

answer:
