Solve the equations below and write the algebraic steps. The first one is done for you.

5n - 5 = 15

$5n - 5 + 5 = 15 + 5$

$5n = 20$

$5n \div 5 = 20 \div 5$

n = 4

2n + 6 = 18

5n + 4 = 24

2a - 1 = 7

4n + 3 = 11

8n - 7 = 33

10n + 9 = 89

5n + 11 = 46

6a - 7 = 53

9b + 15 = 60

5d - 6 = 24

9n + 12 = 30
